

# Tough Viking

## From start to finish!

As human beings, we like to challenge ourselves and test the limits. Of course, that goes for Stibo Complete as well. Tough Viking is one of the big events we've helped to create. Tough Viking is Sweden's largest obstacle course race, and the leading event of its kind in Scandinavia. There are races for adults and children.

Our task was to make sure that all the obstacles and the framework were optimal. The pictures below show what we created using our wide range of products. Everything from banners and stickers to signs and logo templates.

*Our experience is our strength. For such events, it's important to deliver products that can take a little bit of everything!*
