

Art with a higher purpose

In collaboration with the Danish artist and photographer, Jacob Gils, Stibo Complete have printed the series of photos “Portrætter af danske kvinder” (Portraits of Danish women). Ultimately, these photos were all sold and the money in full went to Anja Lovéns orphanage in Nigeria, Land of Hope.

The series of photos consists of 10 portraits printet on 3 mm iBond and 10 different posters printed on 150 g Offset – every piece produces by Stibo Complete. In addition, for the vernissage, we produced elegant holders in black for the large iBond portraits for them to be displayed at eye level without having to be hung up.

The culmination of it all

It all culminated in a vernissage at the Hotel D'Angleterre on Kongens Nytorv in Copenhagen. Here, there was a musical performance by Poul Krebs, and Anja Lovén talked about her work with Land of Hope.
